Reel Rebels: the London Film-Makers' Co-Operative 1966 to 1996 Joy I. Payne,2015-07-17 The London FilmMakers Cooperative was founded in 1966 by a group of artists who sought to explore the possibilities of the moving image whilst maintaining autonomy over the production, distribution, and exhibition of their work. Although their films were not overtly political, artists nevertheless expressed their political attitudes by creating nonnarrative films, thereby rejecting conventional narrative structures associated with mainstream, commercial cinema, which they perceived as supporting the dominant ideology in society. A return to narrative in the 1980s coincided with the introduction of British Art Cinema and the art-house films of Derek Jarman, Peter Greenaway, and Sally Potter, all of whom made experimental films in the early days of the London Co-op.

A Dictionary of Film Studies Annette Kuhn,Guy Westwell,2012-06-21 This volume covers all aspects of film studies, including critical terms, concepts, movements, national and international cinemas, film history, genres, organizations, practices, and key technical terms and concepts. It is an ideal reference for students and teachers of film studies and anyone with an interest in film studies and criticism.

Seventies British Cinema Robert Shail,2019-07-25 Seventies British Cinema provides a comprehensive re-evaluation of British film in the 1970s. The decade has long been written off in critical discussions as a 'doldrums' period in British cinema, perhaps because the industry, facing near economic collapse, turned to 'unacceptable' low culture genres such as sexploitation comedies or extreme horror. The contributors to this new collection argue that 1970s cinema is ripe for reappraisal: giving serious critical attention to populist genre films, they also consider the development of a British art cinema in the work of Derek Jarman and Peter Greenaway, and the beginnings of an independent sector fostered by the BFI Production Board and producers like Don Boyd. A host of highly individual directors managed to produce interesting and cinematically innovative work against the odds, from Nicolas Roeg to Ken Russell to Mike Hodges. As well as providing a

historical and cinematic context for understanding Seventies cinema, the volume also features chapters addressing Hammer horror, the Carry On films, Bond films of the Roger Moore period, Jubilee and other films that responded to Punk rock; heritage cinema and case studies of key seventies films such as *The Wicker Man* and *Straw Dogs*. In all, the book provides the final missing piece in the rediscovery of British cinema's complex and protean history. Contributors: Ruth Barton, James Chapman, Ian Conrich, Wheeler Winston Dixon, Christophe Dupin, Steve Gerrard, Sheldon Hall I. Q. Hunter, James Leggott, Claire Monk, Paul Newland, Dan North, Robert Shail, Justin Smith and Sarah Street.

British Film Culture in the 1970s Sue Harper, 2013-01-28 This volume draws a map of British film culture in the 1970s and provides a wide-ranging history of the period.

British art cinema Paul Newland, Brian Hoyle, 2019-07-23 This is the first book to provide a direct and comprehensive account of British art cinema. Film history has tended to view British filmmakers as aesthetically conservative, but the truth is they have a long tradition of experiment and artistry, both within and beyond the mainstream. Beginning with the silent period and running up to the 2010s, the book draws attention to this tradition while acknowledging that art cinema in Britain is a complex and fluid concept that needs to be considered within broader concerns. It will be of particular interest to scholars and students of British cinema history, film genre, experimental filmmaking, and British cultural history.

The British Film Industry in the 1970s S. Barber, 2013-01-22 Is there more to 1970s British cinema than sex, horror and James Bond? This lively account argues that this is definitely the case and explores the cultural landscape of this much maligned decade to uncover hidden gems and to explode many of the well-established myths about 1970s British film and cinema.

The British Avant-garde Film, 1926-1995 Michael O'Pray, 1996 This collection of essays celebrating British avant-garde cinema's rich history draws together writings by filmmakers, theorists, critics, and curators. These individuals have been engaged over the past 70 years with film not only as a form of art practice but also as a subversive means of representing British society itself and as a personal expression of issues of memory, sexuality, and ethnicity. Included are essays from a wide range of distinguished writers--from Virginia Woolf, Lindsay Anderson, and Peter Gidal to Laura Mulvey, Peter Wollen, and Malcolm Le Grice.

Encyclopedia of the Documentary Film 3-Volume Set Ian Aitken, 2013-10-18 The Encyclopedia of the Documentary Film is a fully international reference work on the history of the documentary film from the Lumière brothers' *Workers Leaving the Lumière Factory* (1885) to Michael Moore's *Fahrenheit 911* (2004). This Encyclopedia provides a resource that critically analyzes that history in all its aspects. Not only does this Encyclopedia examine individual films and the careers of individual film makers, it also provides overview articles of national and regional documentary film history. It explains

concepts and themes in the study of documentary film, the techniques used in making films, and the institutions that support their production, appreciation, and preservation.

British Women Film Directors in the New Millennium Stella Hockenhull, 2017-04-27 This book focuses on the output of women film directors in the period post Millennium when the number of female directors working within the film industry rose substantially. Despite the fact that nationally and internationally women film directors are underrepresented within the industry, there is a wealth of talent currently working in Britain. During the early part of the 2000s, the UKFC instigated policies and strategies for gender equality and since then the British Film Institute has continued to encourage diversity. *British Women Directors in the New Millennium* therefore examines the production, distribution and exhibition of female directors' work in light of policy. The book is divided into two sections: part one includes a historical background of women directors working in the twentieth century before discussing the various diversity funding opportunities available since 2000. The second part of the book examines the innovation, creativity and resourcefulness of British female film directors, as well as the considerable variety of films that they produce, selecting specific examples for analysis in the process.

Transformation and Tradition in 1960s British Cinema Richard Farmer, 2019-05-03 Making substantial use of new and underexplored archive resources that provide a wealth of information and insight on the period in question, this book offers a fresh perspective on the major resurgence of creativity and international appeal experienced by British cinema in the 1960s

A Companion to British and Irish Cinema John Hill, 2019-05-07 A stimulating overview of the intellectual arguments and critical debates involved in the study of British and Irish cinemas British and Irish film studies have expanded in scope and depth in recent years, prompting a growing number of critical debates on how these cinemas are analysed, contextualized, and understood. *A Companion to British and Irish Cinema* addresses arguments surrounding film historiography, methods of textual analysis, critical judgments, and the social and economic contexts that are central to the study of these cinemas. Twenty-nine essays from many of the most prominent writers in the field examine how British and Irish cinema have been discussed, the concepts and methods used to interpret and understand British and Irish films, and the defining issues and debates at the heart of British and Irish cinema studies. Offering a broad scope of commentary, the *Companion* explores historical, cultural and aesthetic questions that encompass over a century of British and Irish film studies—from the early years of the silent era to the present-day. Divided into five sections, the *Companion* discusses the social and cultural forces shaping British and Irish cinema during different periods, the contexts in which films are produced, distributed and exhibited, the genres and styles that have been adopted by British and Irish films, issues of representation and identity, and debates on concepts of national cinema at a time when ideas of what constitutes both 'British' and 'Irish' cinema are under

question. A Companion to British and Irish Cinema is a valuable and timely resource for undergraduate and postgraduate students of film, media, and cultural studies, and for those seeking contemporary commentary on the cinemas of Britain and Ireland.

Historical Dictionary of British Cinema Alan Burton, Steve Chibnall, 2013-07-11 The Historical Dictionary of British Cinema has a lot of ground to cover. This it does with over 300 dictionary entries informing us about significant actors, producers and directors, outstanding films and serials, organizations and studios, different film genres from comedy to horror, and memorable films, among other things. Two appendixes provide lists of award-winners. Meanwhile, the chronology covers over a century of history. These parts provide the details, countless details, while the introduction offers the big story. And the extensive bibliography points toward other sources of information.

The Film Business Ernest Betts, 2023-10-13 First published in 1973 The Film Business makes a factual survey of British films from their beginnings in 1896 to 1972. Ernest Betts offers character studies of men who have built the film industry and made it what it is. He examines the financial and political background and shows how, while intending to encourage film production, it has often had exactly the opposite effect and inhibited its free development. Betts also attacks the manner in which the American film industry has taken over the British film industry and points to the failure of successive governments to save it from repeated crises and losses. Through these fluctuations the author keeps a firm eye on the film itself and brings the judgement of film critics past and present to bear on British cinema, as it moves uncertainly and not without its triumphs into the 1970s. This is an interesting read for students and scholars of film studies, British film history and British cinema.

The Routledge Companion to British Cinema History I.Q. Hunter, Laraine Porter, Justin Smith, 2017-01-12 Over 39 chapters The Routledge Companion to British Cinema History offers a comprehensive and revisionist overview of British cinema as, on the one hand, a commercial entertainment industry and, on the other, a series of institutions centred on economics, funding and relations to government. Whereas most histories of British cinema focus on directors, stars, genres and themes, this Companion explores the forces enabling and constraining the films' production, distribution, exhibition, and reception contexts from the late nineteenth century to the present day. The contributors provide a wealth of empirical and archive-based scholarship that draws on insider perspectives of key film institutions and illuminates aspects of British film culture that have been neglected or marginalized, such as the watch committee system, the Eady Levy, the rise of the multiplex and film festivals. It also places emphasis on areas where scholarship has either been especially productive and influential, such as in early and silent cinema, or promoted new approaches, such as audience and memory studies.
