**Chinese Art: The Impossible Collection** Adrian Cheng, John Dodelande, 2021-05-01 While readers will come away from Chinese Art with a nuanced understanding of Chinese culture, the volume is also a work of art in its own right—a must-have collectible for any devotee of Chinese art and culture. Assouline's Ultimate Collection is an homage to the art of luxury bookmaking—the oversized volume is hand-bound using traditional techniques, with several of the plates hand-tipped on art-quality paper and housed in a luxury silk clamshell.

*The Development Of The Chinese Collection In The Library Of Congress* Shu Chao Hu, 2019-07-11 This is the first comprehensive and in-depth study of the Chinese collection in the Library of Congress, the largest collection of its kind in the Western world. Started in 1869 with some 950 books received in the first exchange of publications between the United States and China, the collection has grown so steadily that in 1977 it numbered more than 430,000 volumes, including 2,000 rare Chinese items, some of which were printed in A.D. 975. In this primarily historical study, Professor Hu examines the social, cultural, and political forces that led to the development and growth of the collection, the acquisitions policies followed, and the sources of personal and financial support found within and outside the Library of Congress. He also explores the methods by which the library has built up several strong areas in the collection, particularly those of Chinese gazetteers, or local histories; ts'ung-shu, or collections of reprints; and rare works.

*Nordic Private Collections of Chinese Objects* Minna Törmä, 2020-05-27 This book explores the ways in which Nordic private collectors displayed their collections of Chinese objects in their homes. This leads to a reconsideration of how to define collecting and display by analysing the difference between objects serving as decorative or collectible items, while tracing collecting and display trends of the twentieth century. Minna Törmä examines four Scandinavian collections as case studies: Kustaa Hiekka, Sophus Black, Osvald Sirén and Marie-Louise and Gunnar Didrichsen, all of whom had professional backgrounds (a jeweler, two businessmen and a scholar) and for whom collecting became a passion and an educational

endeavour. This book will be of interest to scholars in art history, museum studies, Chinese studies and design history.

Art of China Philadelphia Museum of Art,2018 The first publication to explore Philadelphia Museum of Art's wide-ranging collection of Chinese art, offering an introduction to general readers and serving as a valuable resource for future research and scholarship. This catalogue of one hundred highlights, drawn from a collection of more than seven thousand objects spanning more than four thousand years, will be both a sumptuous visual record of the Philadelphia Museum of Art's most notable Chinese works and an informative and valuable reference for those interested in Chinese art. The objects have been selected to show not only the strengths of the collection, but also important and distinctive examples of Chinese art in different mediums. They are also intended to bring together the museum's Chinese collection, which is presently housed in such disparate departments as Chinese export art, costume and textiles, Sino-Tibetan art, and contemporary art--representing sculpture, ceramics, furniture, architectural interiors, textiles, and paintings--

**Shaping Chinese Art History** Katharine Persis Burnett, 2019 Pang Yuanji (1864-1949) was the collector from China with not only the largest number of high-quality antique paintings but also the most comprehensive and scholarly record of his collection. This is the first study that takes the innovative and unique approach to collection analysis by quantifying Pang's collection and comparing it to a selection of contemporaneous private collectors. In doing so, it shows how their tastes and interests were all shaped by the same Qing canon. More broadly, it explains that Pang did not merely absorb this canon, but then also purposefully and systematically used it and his collection to protect China's traditions into an uncertain future--
