*The Devotion of Suspect X* Keigo Higashino, 2011-02-01 This e-book now includes preview chapters from Higashino's newest mystery, SALVATION OF A SAINT. Yasuko Hanaoka is a divorced, single mother who thought she had finally escaped her abusive ex-husband Togashi. When he shows up one day to extort money from her, threatening both her and her teenaged daughter Misato, the situation quickly escalates into violence and Togashi ends up dead on her apartment floor. Overhearing the commotion, Yasuko's next door neighbor, middle-aged high school mathematics teacher Ishigami, offers his help, disposing not only of the body but plotting the cover-up step-by-step. When the body turns up and is identified, Detective Kusanagi draws the case and Yasuko comes under suspicion. Kusanagi is unable to find any obvious holes in Yasuko's manufactured alibi and yet is still sure that there's something wrong. Kusanagi brings in Dr. Manabu Yukawa, a physicist and college friend who frequently consults with the police. Yukawa, known to the police by the nickname Professor Galileo, went to college with Ishigami. After meeting up with him again, Yukawa is convinced that Ishigami had something to do with the murder. What ensues is a high level battle of wits, as Ishigami tries to protect Yasuko by outmaneuvering and outthinking Yukawa, who faces his most clever and determined opponent yet.

Christian Theology in Asia Sebastian C. H. Kim, 2008-05-01 The majority of the world's Christians now live outside Europe and North America, and global Christianity is becoming increasingly diverse. Interest in the history and theology of churches in non-Western contexts is growing rapidly as 'old world' churches face this new reality. This book focuses on how Asian Christian theologies have been shaped by the interaction of Christian communities with the societies around them and how they relate to the specific historical contexts from which they have emerged. The distinctiveness of Asian Christianity is shown to be the outcome of dealing with various historical challenges. Questions addressed include: • How does Asian Christianity relate to local socio-cultural, religious and political environments? • What is distinctive about the historical development of Asian theologies? • How have Asian theologies contributed to contemporary theological discussions within world Christianity?

Materials for Fuel Cells M Gasik, 2008-10-27 A fuel cell is an electrochemical device that converts the chemical energy of a reaction (between fuel and oxidant) directly into electricity. Given their efficiency and low emissions, fuel cells provide an important alternative to power produced from fossil fuels. A major challenge in their use is the need for better materials to make fuel cells cost-effective and more durable. This important book reviews developments in materials to fulfil the potential of fuel cells as a major power source. After introductory chapters on the key issues in fuel cell materials research, the book reviews the major types of fuel cell. These include alkaline fuel cells, polymer electrolyte fuel cells, direct methanol fuel cells, phosphoric acid fuel cells, molten carbonate fuel cells, solid oxide fuel cells and regenerative fuel cells. The book concludes with reviews of novel fuel cell materials, ways of analysing performance and issues affecting recyclability and life cycle assessment. With its distinguished editor and international team of contributors, Materials for fuel cells is a valuable reference for all those researching, manufacturing and using fuel cells in such areas as automotive engineering. Examines the key issues in fuel cell materials research Reviews the major types of fuel cells such as direct methanol and regenerative fuel cells Further chapters explore ways of analysing performance and issues affecting recyclability and life cycle assessment

*Biofabrication* Gulden Camci-Unal, Pinar Zorlutuna, Ali Khademhosseini, 2013-03-18 Microscale hydrogels are potentially useful materials for controlling cellular behavior to mimic native microenvironments for tissue engineering applications. In this chapter, various fabrication techniques to generate microscale hydrogels and their applications in tissue engineering have been outlined. In addition, we provide examples of microscale hydrogels with different physical and chemical properties for generation of tissue constructs. Finally, we discuss potential future directions in fabrication of hydrogels to address challenges in tissue engineering. It is expected that these techniques will enable engineering of three-dimensional (3D) structures with controlled features for the formation of functional tissues and organs.

**Born of the Earth** Nicole Loraux, 2000 One of the world's most renowned classicists here offers a fascinating look at myths of origins and their role in ancient Greek civic ideology. Through a series of critical interpretations of Athenian myths, Nicole Loraux explores the meaning of democracy in its first form, which excluded from its benefits women, slaves, and foreigners. Arguing that these stories have much to tell us about the present and the human condition, her book makes important claims about the role of the past in our understanding of the present. Loraux begins by discussing the Greek fascination with being born from the earth. Myths of autochthony, she asserts, shed important light on attitudes toward both foreigners and women in democratic states. She considers the role demarcated for women by the Pandora myth, according to which women are artificially created out of earth and therefore belong to a race apart. Her analysis also extends to contemporary issues, concluding with the place of the foreigner in democratic societies, ancient and modern. Originally published in France in 1996, Born of the Earth has been superbly translated into English by Selina Stewart.

*Sugata Saurabha* Chitta Dhar Hridaya, Cittadhara Hridaya, 2010 The Sugata Saurabha is an epic poem that retells the story of the Buddha's life. It was published in 1947 in the Nepalese language, Newari, by Chittadhar Hridaya, one of the greatest literary figures of 20th-century Nepal. The text is remarkable for its comprehensiveness, artistry, and nuance. It

covers the Buddha's life from birth to death and conveys his basic teachings with simple clarity. It is also of interest because, where the classical sources are silent, Hridaya inserts details of personal life and cultural context that are Nepalese. The effect is to humanize the founder and add the t.

Sarah Lark, 2018-07-28 Una edición omnibus con los volúmenes de la trilogía «Nube Blanca»: En el país de la nube blanca, La canción de los maoríes y El grito de la tierra. Una epopeya fascinante, recomendada por la crítica y los libreros, sobre dos familias cuyo destino está unido para siempre, en el exótico marco de Nueva Zelanda. En el país de la nube blanca Londres, 1852: dos chicas emprenden la travesía en barco hacia Nueva Zelanda. Para ellas significa el comienzo de una nueva vida como futuras esposas de unos hombres a quienes no conocen. Gwyneira, de origen noble, está prometida al hijo de un magnate de la lana, mientras que Helen, institutriz de profesión, ha respondido a la solicitud de matrimonio de un granjero. Ambas deberán seguir su destino en una tierra a la que se compara con el paraíso. Pero ¿hallarán el amor y la felicidad en el extremo opuesto del mundo? La canción de los maoríes Nueva Zelanda, 1893. Elaine es la atractiva nieta de Gwyneira, quien un día viajó desde el extremo opuesto del mundo para casarse con un desconocido. De su abuela ha heredado la melena pelirroja y el espíritu libre... hasta que William, un misterioso irlandés, irrumpe en su vida y ella cae rendida a sus encantos. Pero entonces, la llegada de su prima Kura, con su sensualidad maorí, cambia el destino de Elaine, y ambas tendrán que enfrentarse a sus propias decisiones y a los vaivenes de una tierra comparada con el paraíso. El grito de la tierra Nueva Zelanda, 1907. La infancia de Gloria, bisnieta de Gwyneira, termina abruptamente cuando es enviada junto a su prima Lilian a un colegio en Gran Bretaña. Una vez allí, Lilian encaja en las costumbres que impone en Viejo Mundo, pero Gloria quiere volver a toda costa a la tierra que la vio nacer, en el extremo opuesto del mundo. Y es ese profundo sentimiento el que la empuja a coger las riendas de su vida e idear un atrevido plan que marcará su destino para siempre.

*One Christ--Many Religions* S. J. Samartha,2015-06-29 Here is a wise, radical, and illuminating book on the obstacles that a rigid interpretation of orthodox christological doctrines presents to dialogue with persons of other faiths. One Christ--Many Religions examines religious pluralism today and, in the light of its implications for the global community, suggests the contours of a revised christology more credible to Christians and their neighbors of other faiths. Samartha argues that the problem with the christological dogmas of the first Ecumenical Councils is not their truth so much as their interpretation, and the un-Christian zealotry they seem to engender in Christians. Sensitive to charges of sentiments of racial and cultural superiority that stem from Christians believing themselves uniquely authorized agents of God, Samartha challenges us to admit the truth of these accusations, and to revise our understanding of Jesus. Without such christological revisions, Samartha fears, Christianity may cease to be Christian, may become enfeebled in the pursuit of justice for the oppressed, alienated from the deeper challenge of Jesus, sealed off from the truths of other religions, and, ultimately, may be barred from experiencing the rich and mysterious encounter of God.

The Bible and People of Other Faiths Wesley Ariarajah,2009-09-01 Most Christians in the modern world live in situations of religious pluralism. They are constantly challenged, at many levels, to relate to people of other living faiths. But is the Bible supportive of a life in dialogue? That is the question The Bible and People of Other Faiths seeks to answer.
